WILL WIN ALL COUNTY OFFICES, SCOTT PREDICTS

Republican Leader States His Views as to Outcome of Election

With 35,000 voters expected to cast their ballots at the polls next Tuesday, political observers in this community and the rest of Lake county are today anticipating a decisive victory for the Republican party candidates.

The election of Judges Perry L. Persons and Martin C. Decker, County Clerk Lew A. Hendee, Probate Clerk John H. Bullock, County Superintendent of Schools, W. C. Petty, Allen J. Nelson for county treasurer and Lawrence A. Doolittle for sheriff is conceded by the keen political dopesters.

See Big C. O. P. Margin While this is an off year election and only about two-thirds of the voters in Lake county are expected to come to the polls on Nov. 6, the political observers prophecy that the Republican party candidates will receive a large majority of the votes. These observers base their estimates on the receptions given the Republican party candidates at the rallies held during the past several weeks and the qualifications and records of the candidates of the one-seekers.

The people of this community and the remainder of Lake county want capable men and women in public office—men and women who will carry on the duties of the government offices ably, honestly and economically. Howard L. Scott, chairman of the Republican County Central Committee, stated today.

"We believe that all the Republican party candidates have shown by their education, past experience in private business or public office that they have the qualifications necessary for good government officials," Mr. Scott added.

Have Kept Faith

Those Republican party candidates up for re-election have kept faith with the people and property owners by operating their offices economically, efficiently and courteously, Mr. Scott stated. While the county candidates for sheriff and county treasurer have shown their aptness to give the people of the county the best possible in those offices by their past experience and training.

"The Republican state ticket headed by William J. Stratton for state treasurer and Francis O. Blair for state superintendent of schools, has men and women of ability, honesty and sincerity. Stratton's record during his term in office as secretary of state still stands at the peak of good government in Illinois," Mr. Scott commented.

Congressional candidates including Ralph E. Churro in the Tenth District and C. Wayland Brooks and Milton E. Jones for congressmen-at-large have shown their interest in the welfare of the people and the continuance of constitutional government for and by the people, Mr. Scott said.

News Makes Largest Mail Shipment From Antieton Postoffice

The largest single shipment by mail ever made from Antieton was deposited in the local postoffice this morning by the Antieton News, and was consigned to twenty-two Chicago suburban postoffices. Several hundred pounds of packages weighing over the parcel post limit were forwarded by express. The total shipment involved nearly a ton of paper used in printing about 70,000 copies of a publication or over a half million printed pages.

Final proof revisions were received Saturday, and the job was off the press at eight a.m. Wednesday. Completion of this job satisfactorily and on time is another proof of the News' slogan "No job too small—none too large."

OLSON CAMP IS HOST TO R. N. A. AT ANNUAL MEET

250 Attend the Convention Here Tuesday—Hold Two Sessions

Olson Camp, Royal Neighbors of America, was host to 250 members of the order assembled at St. Ignatius church hall, in Antieton, Tuesday afternoon and evening at the county annual convention. Fifteen Lake county camps were represented by delegates and visitors.

Major George Bartlett welcomed the gathering to Antieton, and the response was given by Neighbor McCloud of Quince. The afternoon session opened with presentation of the flag. There was community singing, and a school of instruction was conducted by Deputies Cooley and Krieger, with each camp represented exemplifying one part of the work.

Dinner was served by the Women's Guild at St. Ignatius church at 5:30 o'clock.

The evening session opened at 7:30 with Oracle Eme Nelson presiding. Deputies Kreiger and Cooley introduced, and the juvenile camp of Waukegan initiated two juveniles.

The ritualistic work of the order was exemplified by Olson camp of Antieton, when 18 candidates were initiated, nine of whom were from Antieton. The local team received praise for the manner in which they did their work, and district deputies commended Olson camp for the manner in which the business of the convention was held. Every detail was carefully taken care of and there was not a pause during the afternoon or evening session.

Musical readings by Neighbor Edan were an enjoyable feature of the evening session.

An invitation was given to have the convention meet in DeForest in 1935.

"Thankful for Health Day" Is Program for Schools

"Thankful for Health Day" is the title of the grade school Thanksgiving program which the Lake County Tuberculosis Association is sending out to the schools this week. This year, at last, this program was prepared by the National Tuberculosis Association and contains poems, songs and a playlet. The playlet tells the story of the first Tuberculosis Sanatorium which was established by Edward Livingston Trudeau fifty years ago.

In addition to finishing the School health Program the Tuberculosis Association is sponsoring an essay contest in the schools. The life of Trudeau is the topic for the essay. The best one will be broadcast from the local radio station by the writer.

The judges of the contest will be Mr. W. O. Petty, County Superintendent of Schools, Mrs. Albert P. Saito of Highland Park and Mrs. John O. Mechem of Lake Forest.

Material on the life of Trudeau may be obtained from the Association office in the Court House.

The Spencer individually designed corsets will be demonstrated Tuesday, Nov. 6th, at MariAnne's, Antieton, by Mrs. Wade of the Chicago office.

1934 ROLL CALL LEADER PREDICTS SWIFT CAMPAIGN

In accordance with a long established custom the American Red Cross will conduct its annual membership Roll Call. In this and thousands of other communities throughout the country commanding Armistice Day.

This year the territory outside of Waukegan and North Chicago lying within the jurisdiction of the local chapter and which includes the north townships of Lake county will be supervised by Mrs. William Marks of Lake Villa.

Mrs. Marks has received the volunteer support in this undertaking from many ladies who have long been identified with the community's leadership. Among these are Mrs. C. Junge, Mrs. Wm. Huson, Mrs. Amann, Mrs. Geissler, Mrs. McCandless, Mrs. Davis and Mrs. Zeigler of Round Lake; Mrs. Howard Scott, Mrs. Noel White, Mrs. Hamberger, Mrs. Schrader, Mrs. Nelson, Mrs. Ellison, Mrs. Mall, Mrs. Landry, Mrs. Bennett, Mrs. Tweed, and Mrs. Hollister of Fox Lake; Mrs. Sherwood, Mrs. Barnstable, Mrs. Trowbridge, Mrs. Fry and Mrs. Charles Hamlin of Lake Villa; Mrs. Gordon Bonner of Millburn; Mrs. Valenta, Mrs. Stickles, Mrs. Root, Mrs. Liphardt, Mrs. Daulton, Mrs. Rasinski and Mrs. Claxton of Ingleside and Mrs. J. Brogan of Antieton who will select her committee this week. In Grayslake Mrs. Schlesier, Mrs. Reed, Mrs. Baylor, Mrs. Seisser, Mrs. Johnson, Mrs. Neville, Mrs. Hook and several others will assist.

Major Talcott, of Waukegan, chairman of the Waukegan chapter for the past fourteen years in this state, has said: "The Red Cross is no stranger in this community. Locally, it has rendered an indispensable service during the period of depression. Its work must go on. Since all its activities are made possible by individual support, I am convinced that the local citizenship will respond quickly and graciously when the membership campaign gets underway on Armistice Day."

Prizes were donated by Webb's Racket Store, Maude Sabine, King's drug store, Reeves' drug store, Marie Anne's, Shultz & Son, O. S. Klass, Antieton News, Williams Bros. and Mr. Swanson.

Prize-Winners Named

Following are 26 of the children who won prizes. Seven others were awarded prizes by the judges but their names could not be learned.

Dale Barnstable, Alice Fox, Bernard Sherman, Lucille Sherman, Ray Quedenfeld, Catherine McCorkle, Lucille Waters, Leona Hoekstra, Billy Techert, Mildred Van Patten, Lotus Crawford, Maurice Kertzer, Darlene Christensen, Jimmy Dunn, Rosemary Morley, Jerry Pregenzer, Roland Burstein, Jimmy Walsh, Roy Aronson, Dorothy Miller, Roberta Seller, Billy Mongan, Doris Klass, Juanita Crawford, Judy Pregenzer, Junior Patrolsky.

At the theatre the children saw the feature picture, "Thirty Day Princess," and other short subjects and they thoroughly enjoyed the show.

The Antieton News and Manager Swanson of the theatre acknowledged the helpful co-operation on the part of Antieton business and professional providing the evening of supervised fun.

Following are the names of the more questionable forms of Halloween fun.

IN THE BEST TRADITION

Illinois is proud of her rank in the Union. Imperial in population, in resources, she is the very heart of the earth's mightiest nation. Proud, rightly, of these things, and proud of her history. Proud that her history for three generations, save for a few short, strange interludes, has been shaped by the Republican party. The best traditions of Illinois are Republican.

A distinct addition to the highest traditions of Illinois Republicanism came in the four-square, inpregnable record of William J. Stratton as Secretary of State.

It was not merely that he managed the intricate details of the office promptly, pleasantly, and at the lowest expense in proportion to the amount of business done, of any state in the Union. Nor was it merely that, in times of stress and uncertainty, he took care of eighty millions of dollars for the state of Illinois without loss or shortage.

There is something else, surpassing this. William J. Stratton, by turning into the state treasury every penny of interest earned by the funds he handled proved that a campaign pledge made by him is a sacred obligation. By doing not simply what the law required, but in going beyond and above his legal obligations, he added new luster to Illinois Republicanism.

He has demonstrated his special fitness for the office of State Treasurer. His whole record, public and private, is the best tradition of his state and party.

NEVER RUB DIRT IN—ALWAYS WASH IT OFF

(Contributed).

The flying rumors gather'd, as they roll'd,
Scarce any tale was sooner heard than told,
And all who heard it made enlargement, too.
In every ear it spread, on every tongue it grew.

What more noble work could man undertake if he always carried the above title in his mind and put it into actual practice every time he heard one of his fellow-men's name being besmirched.

Never rub the dirt in—always wash it off. To defend the absent is surely more humane than to defame.

No man ever won his fellowmen's commendation by condemnation. It is the truly strong who discount slander and rumors of scandal; the weak, the first to accept and welcome them as a veritable fact. While whispering tongues can poison truth innuendo, a shrug, a knowing look sometimes does more to knock a reputation down than a direct accusation.

Main in his journey through this grimy business world needs lots of soap and water to help him keep his reputation from becoming spotted. If in his absence his fellowmen forget, show them the lavatory, it's ten to one they need it. Some men can convey a libel in a frown, others confirm it by their silence, neither are subject to retraction. They are cowardly, felonious without penalty.

Discretion of speech is more estimable than eloquence or a reputation for loquacity, for he who talks much says little of value.

Whispers of scandal are a menace against society, while truth bravely spoken is its salvation.

Idle men make idle talk, after exhausting the subject of self, seek to rectify the faults of the absent. Deep minds talk little, censure rarely, praise sparingly, condemn scandal but are always ready to defend. Never rub the dirt in—always wash it off.

SKIMMED MILK STARVES BUSINESS

Taxes are high—exorbitantly high—now. And if some public officials have their way, they will be higher in the near future.

The case of New York is one in point. It is proposed that a gross receipts tax and a municipal income tax be levied on all business in the metropolis. The latter would be fixed at 15 per cent of the tax paid the federal government.

City officials justify their demands on the ground that the city's income is no longer equal to its outgo. No one knows what will happen to New York business if these new proposals go through—but it takes no seat to forecast that the effects will be adverse, that businesses will retrench, or move away, that people will lose their jobs, that investment income will drop or disappear, that New York will find that hard times can become still harder.

One does not have to be an alarmist to say that present tax policies which extend through every form of government, are driving us slowly, but inexorably, toward national bankruptcy. During years in which national income has dropped, the cost of all government—local to national—has steadily risen. Depression has spurred the growth of bureaucracy, the extension of political activities and official spending.

It is high time that public officials reverse their thinking process and figure out, not how income may be increased to meet excessive expenditures, but how expenditures can be kept within the bounds of reasonable tax income.

We cannot nourish employment-sustaining industry if we allow politics to fatten on the cream and leave business only skimmed milk.

COOPERATIVES SERVE IN MANY WAYS

Some of the most important activities of progressive farm cooperatives deal with problems not directly related to the buying and selling of agricultural commodities.

These problems include such matters as monetary policies, tariffs, commodity prices and all manner of government legislation. The farmer, in common with all other producers and workers, is vitally affected by national and international economic trends and policies. His farm, so far as this is concerned, is no different from a bank, a service industry, a life insurance company, as any other institution—in the long run, he will fail or succeed to the same degree as other endeavors here and abroad fail and succeed.

The great farm co-ops have given the farmer something he cannot obtain for himself as an individual—experts who work to make his influence, his wishes and his interest felt. In doing that, they have been extremely successful—farm leaders have been called in during the writing of important legislation of various kinds, and the completed bills contain valuable features that they suggested.

Thus, the farm co-op serves in many ways—and the thousands of progressive farmers who make successful cooperative associations possible are building stably for the future.

CHRISTIAN SCIENCE CHURCHES

"Probation After Death" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 23.

The Golden Text was, "The lost enemy that shall be destroyed is death" (1 Cor. 15:56).

Among the citations which comprised the Lesson-Sermon in the following from the Bible: "Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time; Casting all your care upon him; for he careth for you. Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour; Whom resist steadfast in the faith" (1 Peter 5:6-9).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "There is neither place nor opportunity for Science for error of any sort. Every day makes its demands upon us for higher proofs rather than professions of Christian power. These proofs consist solely in the destruction of sin, sickness, and death by the power of Spirit, as Jesus destroyed them" (p. 232-233).

AMUSEMENTS

America Goes on the
Platinum Standard

A new deal in theatre entertainment is on the way to Waukegan when "Platinum Blondes" comes to the Genesee Theatre on Sunday, November 4th.

Forty-five Platinum Blondes, consisting of singers, dancers, comedians, musicians and entertainers of proven ability. Platinum Blondes is conceded one of the fastest and most satisfying revues to be placed on tour in many a season, and all of the tricks of the stage as to stage lighting, scenic effects and costuming have been resorted to, to make Platinum Blondes an outstanding attraction.

With an array of talent, "Platinum Blondes" is headed by Sara Batties and her Platinum Tunersmiths, a group of twelve young ladies whose style of music can well hold its own with many of the so-called name orchestras that are presided over by well known male musicians; the comedy team of Dolce and Marsh, the Dawn Sisters, late features of several Broadway productions; Miss Billie Gerber, in Impressions of a male; Marjorie Little, platinum blonde charmer with a style of song delivery which is all her own; Dorothy Slosson, whose whistling has delighted audiences over the radio; the whirlwind dancing of the Lee Twins; in addition to the above named stars Platinum Blondes carry an ensemble of twelve young ladies who have been selected not only for their beauty but primarily for their ability as dancers.

ho screen attraction Sunday, Nov.

4th, is "The Richest Girl in the

World," starring Miriam Hopkins, John McCrea and Fay Wray.

"365 Nights" at the
Gateway Theatre

A rollicking farce-comedy of Hollywood life and loves is promised to patrons of the Gateway Theatre, Kenosha, when the Fox production "365 Nights in Hollywood," arrives for this week-end showing.

Advance reports state that the new film hits a fast and furious pace at its opening and continues to roll up laughs by the hundreds as it speeds to a surprise conclusion.

And now J. Edgar Hoover, director of Uncle Sam's agents who wage a relentless war on gangsters, wants to eat that time to five seconds. Even 22 seconds saved might prove a decisive factor in an emergency, he pointed out.

The five-second record can be made by a "robot" searcher. It already has been applied to about 25,000 finger-print cards and is being rapidly extended to others.

Roughly, this amazing machine

works like this:

Each of the ten fingerprints received from a law enforcement agency is analyzed separately and made into a composite diagram, punched into a card.

When a sample fingerprint is received for identification, the machine is "set" according to the type of the sample and the cards fed in. Miraculously, it fits out only a dozen or so of the cards most likely to correspond with the sample.

To establish an identification, it is necessary only to examine the finger-print record represented by the selected punch cards.

Legal Tender

Dimes, quarters and half dollars are legal tender in amounts not to exceed \$10. Nickels and pennies are legal in amounts not to exceed 25 cents.

The booklet is devoted to the types of loans generally required by farmers, the need for farm credit, how it can be obtained, when it is safe to borrow, what principles to follow to establish credit, advance of needs, and how both the lender and borrower are interested in sound, productive farm credit.

Several of the Royal Neighbors of the local camp attended the Antioch on Tuesday, and the officers put on a part of the ritualistic work.

Mrs. Sidney Barnstable and Mrs. Charles Britton were Waukegan visitors on Monday.

Buildings Settle Unevenly
A world-famous example of a building settling unevenly because of an unsatisfactory soil foundation is the Leaning Tower of Pisa in Italy. This building started to settle unevenly while it was being built and has continued to settle ever since. That it started to settle while in course of construction some hundreds of years ago is indicated by the fact that efforts were made to correct the slant of the upper floors by building them higher on the sinking side. Even these upper floors on which correction was made are very much off level.

Students Sponsor Newspaper

The Commercial Club is sponsoring a newspaper about the High School to be sold to the pupils for three cents.

All members are only temporary members until they have a certain number of points. There are several different ways of acquiring these points. By writing to foreign students, by working on the newspaper, by conducting a lost and found bureau, and by participating in dramatics, the temporary members may accumulate the required points.

Teachers Attend Institute

On Monday, October 29, the teachers attended a very interesting meeting of the Lake Shore Division of the Illinois State Teachers' Association at the Evanston Township High School.

At the general sessions John Guy Fowles, Professor of Education, University of Wisconsin, and William Mather Lewis, President Lafayette College, Easton, Pa., were the speakers.

At the senior high school session Stephen Leacock, Professor of English, McGill University, Toronto, was the speaker.

Film Portrays Formation of Earth

We were entertained on October 30th in the High School Assembly by a talking picture which had to do with the development of the earth. The way in which our earth was formed was portrayed in a most interesting manner. An additional comedy feature was presented.

Grade School Notes

The grade school teaching staff and the board of education drew favorable comment from Floyd T. Goodler, assistant state superintendent of public instruction, who visited the local schools recently. He expressed himself as being well pleased with the condition of the buildings, and size of the classes, the text books used, and the adequate facilities provided by the board of education.

Plans are being made for the second annual conference spelling match to be held in December. A list of 1,200 words to be used in the match has been placed in the hands of all upper grade pupils.

Several pupils of the seventh and eighth grades have entered the essay contest being sponsored by the Lake County Tuberculosis Association. The winner will broadcast his essay over station WCBD.

Educational films, mainly dramatizations of classics, will be shown every second week beginning Nov. 12.

AN OPEN LETTER TO THE Voters of Lake County

My Friends and Neighbors:

You have been very kind and courteous to me during the past several months. Your voluntary pledges of support have pleased me and proved that honest, efficient service brings its reward to those who hold public office.

Owing to the losses we all suffered when the financial structure of the country collapsed, I had very little money to spend while making a canvass of the county. The assistance and encouragement you have given me will always be cherished as something of great value.

Votes, and votes only win elections. Tuesday, November 6th is the day when you may make known — through the ballot — your choice for Sheriff of Lake County. I urge you all to go to the polls next Tuesday.

I have endeavored to conduct a clean campaign, and do not anticipate that my opponent will personally give his approval to any eleventh hour attack. Should some over-zealous, partisan politician do so, I feel certain you will pay no attention to charges made at a time too late to be answered.

With an earnest desire to serve you well in the office of sheriff, if elected, I am.

Most gratefully yours,

LAWRENCE A. DOOLITTLE

SERVICE STATION

Antioch, Ill.

As bright as any in her class

But her marks were always low!

It took a wise mother to discover that poor lighting conditions were responsible for her lack of interest in home work.

THERE wasn't a pupil in the whole grade any brighter than Betty. But she hated to do homework. And her marks were always low. Betty's father said, "She's just lazy." But her mother was wiser. She visited her nearest Public Service Store and got from them a marvelous little device called "The Lighting Tape Measure." When she measured Betty's study lamp with this she found it only gave her from $\frac{1}{4}$ to $\frac{1}{2}$ as much light as she needed. A simple change of bulbs made all the difference in the world. And now Betty studies without a bit of coaxing.

What correct lighting is

Experts estimate that in two out of three homes, some member of the family suffers from the wrong kind of lighting. To protect eyes you should have from 20 to 30 foot-candles of light falling on the printed page. It should be properly diffused with no glare, no deep shadows, no contrasts to cause eyes to change focus frequently. Under such lighting eye tension is relieved. Your body relaxes. Your nerves relax, too.

Most women would be only too glad to protect the eyesight of their children. But they have no way of measuring the kind of light their lamps give. And so, night after night, eyes struggle on with danger of permanent injury.

How to get it

In the last few years some wonderful discoveries have been made about proper lighting. Lighting engineers have found that just by changing the position of shades, by raising or lowering the height of bulbs, and by designing a special kind of "light reflecting" shade, these handicaps to eyesight are completely overcome. Your Public Service Store has a variety of these properly designed lamps for sale. Come down and see them and at the same time learn, from our better lighting display, simple and easy ways in which you can improve the lighting in your home. And get, *Free*, a marvelous little device called "The Lighting Tape Measure" which enables you to tell quickly whether or not each lamp in your home is providing *safe* light.

Thrifty Cooks Serve Crack Wheat Dishes

Inexpensive but Nourishing, Supplies Energy, Minerals and Vitamins

A delightfully inexpensive yet most nourishing food is whole wheat. It gives us heat and energy, supplies protein for body building, minerals which are somewhat lost in refined food products, and vitamins for disease prevention.

The wheat is whole when you buy it but the kernels cook more quickly when cracked. To do this, simply wash the grain, dry it thoroughly in the oven and then run it three times through the finest blade of your food chopper. About 30 minutes toasting in a hot oven 400 degrees F. gives a pleasant, nutty flavor.

Since some of the recipes call for cracked cooked wheat, here are the directions:

Cooking Cracked Wheat Grains
2 cups cracked wheat
6 cups boiling water
1/2 teaspoons salt

Boil the water and salt in a double boiler placed directly over the heat. Sift the cracked wheat slowly into the boiling water, stirring now and then until the mixture boils. Let it boil 5 minutes, then place the boiler top in the lower section which contains boiling water and cook for 1 hour longer. Still another hour of slow cooking will oven more improve the flavor, though the first hour is sufficient, especially if the cereal is to be used in a cooked food.

Stuffing for Wild Game

1/2 cup cracked wheat
1 cup water
1 tablespoon butter
1/2 teaspoon salt
2 tablespoons chopped onion
2 teaspoons chopped nuts
1/2 cup chopped celery
1 small egg

Cook together the cracked wheat, water, butter, and salt in the top of a double boiler for 1 hour. Combine with the other ingredients and use for stuffing wild ducks or other game.

Meat Loaf

1/2 lbs. hamburger
2 cups cooked cracked wheat
1 cup bread crumbs
1 egg
1/2 minced onion

1/2 tablespoon butter
1/2 green pepper
1/2 cup milk
Salt and pepper to taste.

Soak bread crumbs in cold water. Fry the onion in the butter. Press out excess moisture from bread crumbs, combine all ingredients and place in a greased bread pan. Bake 1 hour in a moderate oven (350 F.).

Honey Spice Cookies

1/2 cup shortening
1/2 cup honey

1 egg well beaten
1 cup cooked cracked wheat
2 cups flour
1 teaspoon cinnamon

1/2 teaspoon baking powder
1 cup raisins
1/2 teaspoon soda
1/2 teaspoon cloves

Cream shortening and honey. Add eggs and wheat. Sift flour, spices, baking powder, and soda and add to mixture. Add raisins, drop by teaspoons on a greased baking sheet and bake in a moderate oven 30 minutes.

Cracked wheat Nut Bread

1 egg
1/2 cup sugar
1/2 cup milk
1 tablespoon melted shortening
1/2 cup cracked wheat
1/2 cups flour

1/2 teaspoon salt
1/2 teaspoon baking powder
1/2 cup chopped nut meats.

Cans Leghorns

Finds It More Profitable to Sell Culls Cooked in Glass Jars

Leghorn hens bring in much better price in glass cans than on the market. That is the experience of D. E. Zimmerman of Ashland, county, Ohio. He says that a four-pound hen culled from his flock will bring only 40 or 50 cents. So he cans his old hens during the summer and falls as they are culled and gets \$1.25 a piece in the cans.

In the canning, quart glass cans are used. One Leghorn hen, when properly cut up, will fit nicely into one of these cans. In the case of exceptionally large hens, a piece of the back is left out. Mr. Zimmerman culs his flock regularly, so that at each culling he has about 25 hens to be canned. These hens are killed, dressed, cut as you would cut a chicken for frying and packed in the cans. Then they are cooked, or processed, for three and one-half hours.

Directions on the can tell how to proceed when preparing the chicken for the meal. After telling how to remove the lid, the directions read as follows: "Place can in hot water or oven. Heat thoroughly, pour off stock and use for gravy or noodles; roll chicken in flour and brown in butter."

"Canned chicken comes in very handy for people whose friends drop in about meal time and something has to be prepared quickly," said Mr. Zimmerman. "It is already cooked and you can have a good chicken dinner ready in 15 minutes. That's why many people like it. We just can the culs from our flock which amount to about 400 a year."

Making Flower Holders

Satisfactory flower holders may be made from molded paraffin. Pour the hot paraffin into a container of suitable size, and as soon as the wax begins to harden, insert pencils or large needles and leave them until the mold is hard. Then remove the paraffin, pierce the holes through and remove the pencils. The holes will hold inserted flower stems upright.

Beat the egg and sugar until light. Add milk to which the melted shortening has been added. Add cracked wheat. Sift dry ingredients and mix with nutmeg. Beat well. Fill a greased bread pan 2/3 full and bake in a moderate oven (350 F.) for 1 1/2 hours.

Cracked Wheat Muffins

2 tablespoons cooking butter
2 tablespoons lard
4 tablespoons sugar
1/2 teaspoon salt
1 egg, well beaten
1 1/2 cups flour
4 teaspoons baking powder
1 cup cooked cracked wheat
1 cup sweet milk.

Beat the softened shortening with the sugar and egg. Add the sifted dry ingredients alternately with the milk. Stir in the cracked wheat last. Bake in greased muffin tins 16 to 25 minutes in a hot oven (415 F.).

Easier This Year To Remodel Last Season's Clothes

A Few Changes Here and There Bring Last Year's Garment to Date.

Urbana, Ill., Nov. 1—it will be easier this year for women to get new clothes from those of previous seasons than it has been for several winters past, according to Miss Edna Gray, associate in clothing extension at the College of Agriculture, University of Illinois. All that may be necessary to make 1934 look like 1935 will be to remove a little fullness, substitute a new collar or add a harmonizing jacket, she explained.

The outstanding points of difference between the styles of 1934-35 and those of 1933-34 are summarized as follows by Miss Gray:

Silhouette—1933-34 slender and straight; 1934-35 very straight and slender; "stiletto" skirt bulky at top.

Skirt length—1933-34 daytime long, than 1932-33; 1934-35 little change.

Skirt fullness—1933-34 from knee down; 1934-35 below knee, lower than 1933-34.

Skirt design—1933-34 simple, some intricate seaming; some tunics; 1934-35 very simple, two and four gores; tunics; many skirts split at front, side or back.

Waistline—1933-34 normal; 1934-35 normal or slightly raised, sometimes not belted.

Waists—1931-34 well fitted, some bousing at belt line; 1934-35 little change; some fullness above belt now permitted.

Shoulders—1933-34 square, clearly

outlined; 1934-35 more sloping, less broad.

Sleeves—1933-34 somewhat decorative; 1934-35 less full; somewhat more simple, bracelet length; some dolman type in afternoon dresses.

Necklines—1933-34 high, round, many collars; 1934-35 high, draped; some square; many collars, also many plain necklines.

Seam lines—1933-34 many diagonal, curved and angular seam lines in both waist and skirt; decorative; 1934-35 straight and vertical at the front and back; fewer decorative seams.

Fabrics, 1933-34 plain, making dress interest depend on details of construction; 1934-35 monotone with texture interest, making dress interest depend more on fabric, less on details of construction; many elegant fabrics available.

Origin of Bridal Veil

The bridal veil had its origin in the East, where many women still go veiled during the greater part of their lives and where a husband is not supposed to see his bride's face until after the ceremony of the marriage.

MARTIN F. FEHT, Prop. Tel. Wilmot 661

E. Church, candidate for congress from the tenth district.

"Remove this fear and clear up the uncertainty by sane and sound methods, and the nation will start promptly on its way to its rightful place at the head of the world's economic and industrial procession," declared the popular Republican Congressional candidate.

Among other things Church says that if he is elected to Congress, he will do everything in his power to safeguard the individual rights of every man, woman and child in the United States, and that he will urge Congress to resume immediately all of its legal duties and powers as our representative law-making body.

Mr. Church and Supt. Petty arrived late at the meeting, because of previous engagements, and some of the big crowd did not hear them speak.

FREDERICK PEARCE DIES AT HIGHWOOD

Was Well Known in Western Lake County. Buried at Antioch

Frederick Pearce, 74, passed away at his home in Highwood, Ill. Having spent the greater part of his life as a farmer in the vicinities of Lake Villa and Spring Grove, Mr. Pearce was well and prominently known in western Lake county.

He was born in Westroynd, England, Feb. 1, 1870. He came to this country when 20 years of age.

He is survived by his wife and three children, also a sister who lives in England.

Funeral services were held Monday afternoon at Highwood and interment was in Hillside cemetery, Antioch.

William Anderson and Billie, and their guests attended a Century of Progress Thursday.

Airplanes With Machine Guns

Prior to the outbreak of the World War no airplane on the western front was actually armed with a machine gun. Rifles, carbines, pistols, shot guns and hand grenades were carried by pilots and observers. The Fokker monoplane (Autumn, 1915) was the first effective "fighter" airplane. It was fitted with a fixed machine gun firing straight ahead, and a synchronizing gear by which the actions of the engine and the machine gun were co-ordinated so that the gun only fired when the propeller blade was not opposite the muzzle of the gun.

The Negro

A person is still considered to be a negro, or specifically a quinqueon, when 15-16 of his blood is white, incidentally, while the child of a white and a negro is known as a mulatto, the child of a negro and a mulatto is technically called a sumbo. — Collier's Weekly.

Oldest Rococo Building

The Amalienburg in the Schlosspark, Munich, looks back on 200 years of existence. It is the oldest Rococo building in Germany. The palace, built for the Electress Amalia, contains valuable woodcarvings, and mirrors and chandeliers of finest cut glass.

First Weather Records

The first weather records in America, so far as known, were kept by Rev. Johann Campanius, who recorded the weather each day in the colony of New Sweden near the present site of Wilmington, Del., for the years 1644 and 1645.

Use for Viscaya Cactus
Not only is the viscaya cactus of the American southwest a source of sweetish sap, which serves as water to the thirsty traveler, but a profitable industry has developed around the use of its pulp in the manufacture of candy.

Profiteering in Afghanistan
Throughout Afghanistan are tombs of holy men who were deliberately murdered by their friends so that the communities in which they lived could set up shrines and benefit from the resulting traffic to pilgrims.
